

# Damplas single-sided jointing tape

- Excellent adhesive strength
- Supplied in rolls of 75mm x 33m
- Resistant to moisture and mild salts, alkalis and acids

## DESCRIPTION

Dampas single-sided Jointing Tape is a high-tack PVC tape for use sealing laps in damp proof membranes and gas membrane systems. When used in accordance with Dampas Double-sided Jointing Tape, the system provides a BBA approved (certificate 09/4692) watertight seal.

## APPLICATION

Dampas single-sided Jointing Tape is designed for use in sealing lap joints in Dampas DPM and Gas barrier systems.

## INSTALLATION

Ensure all surfaces are clean, dry and free from dust. Apply the tape equidistant over the lap of the bonded membrane. Apply pressure to the tape to ensure good adhesion. Store in a warm dry place and do not use when temperatures drop below 5°C.
